ArcSight ESM

A comprehensive threat detection, analysis, and compliance management SIEM solution.

ArcSight ESM - Enterprise Security Manager

ArcSight Enterprise Security Manager (ESM) is a comprehensive threat detection, analysis, triage, and compliance management SIEM platform that dramatically reduces the time to mitigate cyber-security threats. ArcSight allows security teams to move from enriched event data, to powerful real-time correlation, use workflow management and security orchestration, and to triage advanced persistent threats to mitigation and resolution.

Winner SC**2017**awards
Honored in the U.S.

Best SIEM Solution in the Market

HPE Security is thrilled to announce that ArcSight Enterprise Security Manager (ESM) and ArcSight Data Platform (ADP) are the winners of "Best SIEM Solution" by SCMagazine in their 2017 SC Awards. Winners were announced on February 14th, 2017 at RSA Conference in San Francisco, CA.
